## HEALTH & SAFETY

### SEA BASE RISK ADVISORY

**Sea Base Experience:** Sea Base Adventures are not risk-free. Participants must follow safety measures and take personal responsibility for their health and safety. Climate conditions include temperatures ranging from 45 to 95 degrees, high humidity, heat indexes reaching 110 degrees, and frequent, sometimes severe tropical weather. Prolonged, rigorous activities include snorkeling, swimming, kayaking, canoeing, sailing, hiking, and others. It is the responsibility of participants, participants parents/guardians, participant's healthcare teams and unit leaders to ensure that each individual, youth and adult, can safely participate in Sea Base Adventures.

**Adult Participants:** It is the role of accompanying adults to ensure youth safety. Because of this, adult participants must arrive in good physical condition and have no medical conditions that could result in diverting the Sea Base staff's attention away from the youth participants.

#### **ALL Sea Base participants must be able to:**

- Swim in a strong manner.
- Climb a 6 ft. ladder, unassisted, in inclement weather, from the water onto a rocking vessel.
- Self-rescue if found overboard in inclement weather.

**Location:** Sea Base Adventures are conducted at sea, often far from land, with limited access to emergency services. Individuals with medical conditions that require immediate or nearly immediate access to professional medical care should not attend Sea Base.

**Trained Leadership:** Each crew is required to have at least one adult trained in Wilderness First Aid and CPR/AED or who has a greater professional medical certification. This leader acts as the primary first response until emergency services arrive. There are no onsite facilities for treatment or extended care at Sea Base. - Persons with diabetes who have had frequent problems and/or hospitalizations should not participate
- Persons with diabetes will not be allowed to scuba dive.

**Seizures (Epilepsy):** Seizures while snorkeling are extremely dangerous and often fatal.

- History of loss of consciousness often precludes snorkeling. Formal consultation with a neurologist and/or cardiologist is required.
- No participant with a history of seizures or taking anti-epileptic medication may snorkel or scuba dive. Participants meeting these criteria must be wearing a USCG-approved lifejacket and may not be wearing a mask anytime they are in the water. Participants meeting these criteria are allowed to swim in the water but must be accompanied by their buddy AND an adult who is trained to recognize symptoms of a seizure.

---

## TO LIMIT RISK AND THE POSSIBILITY OF HARM

**Leadership:** Crew leaders must have a strong understanding of every participant's limitation and be fully prepared to administer treatment for medical conditions. Crew leaders are responsible to know and reinforce Scouting America Safe Swim Defense, Safety Afloat and Scouting America Youth Protection.

**Medical Treatment:** Wilderness First Aid and CPR/AED trained crew leaders are the first line of treatment in any medical emergency. **Crew leaders must be prepared to assume this role and responsibility.** Any medical emergency requiring professional assistance will be referred to the United States Coast Guard or appropriate agency if at sea or local EMS if on land.

# HEALTH & SAFETY

**Storing and Dispensing Medications:** Sea Base does not store or dispense medication. Prior to arrival the crew must develop a system for properly storing and dispensing medication. Consider a Pelican Case, or some other lockable, waterproof case for storing medication.

**Over-the-Counter Medication:** Sea Base does not dispense any type of medication including over-the-counter medication. Each crew is responsible for bringing a Sea Base specific first aid kit including any over-the-counter medications that might be needed.

**Health Insurance and Scouting America Campers Accident and Sickness Plan:** Every Sea Base participant should have health insurance and provide front and back copies of their insurance card. All campers are covered by a limited Campers Accident and Sickness Plan. This plan is a secondary policy. When not insured, Scouting America Campers Accident and Sickness Plan becomes the primary policy. [Please review the policy for details.](#)

**Sea Base Specific First Aid Kit:** Every crew must provide their own first aid kit. A Sea Base specific first aid kit includes all items found in a [traditional back country first aid kit](#) along with SPF 35 or greater sunscreen, SPF 35 or greater lip balm, small plastic bottle of vinegar, sea sickness medication, non-aerosol insect repellant, swimmers ear drops, Benadryl, cooling cloths.

**Special Needs:** When required, **individuals with special needs must have an advocate who is actively participating as a member of the crew** and understands the individual's limitations and needs.

**Cleanliness:** Participants should properly wash their hands whenever possible and always after using the restroom, prior to cooking or putting their hands in their mouth.

**Ear Care:** After snorkeling, diving, or swimming, participants should tilt their head to one side, gently pull on their earlobe until confined water is released and then repeat on the opposite side.

**Motion Sickness:** Due to the nature of ocean-based adventures, it is inevitable that some crew members will have issues with sea sickness. **Vessels do not return to Sea Base because of sea sickness.** Participants should speak with their physician regarding the use of sea sickness medications.

**Hydration:** Severe dehydration can lead to significant illness, and in extreme cases, death. Crews should establish and utilize a clear hydration plan and ensure that every crew member has or purchases a Nalgene style water bottle that can be clipped to a vessel.

- Metal and aluminum water bottles are prohibited for Sailing programs.

**Sunscreen and Sun Coverage:** Overexposure to sun can cause burns, blisters, and illness leading to discomfort and, in severe cases, suspension or cancellation of an individual's or crew's adventure. In addition to biodegradable, reef-safe SPF 35 or greater sunscreen; Sea Base highly recommends that every participant wear a long-sleeve UPF 30 or greater shirt (particularly while snorkeling), hat- preferably wide brimmed, buff, polarized sunglasses.

- Spray and aerosol sunscreens are prohibited at Sea Base. They can cause boat cushions to turn orange and produce slippery, unsafe conditions on decks and hand-holds of vessels

# HEALTH & SAFETY

## WEATHER CONDITIONS AT SEA BASE

Sea Base continuously monitors for inclement weather conditions. The topmost priority is your crew's safety, the safety of the captains and their vessels, Sea Base staff and equipment. **Please note: Hurricane season is from the beginning of June to the end of November.**

*Prior to your trek monitor forecasts for your arrival through departure dates. Visit sites such as:*

[National Oceanic and Atmospheric Administration \(NOAA\)](#)

[National Weather Service \(NWS\)](#)

[National Hurricane Center \(NHC\)](#)

**Be familiar with the following weather terminology:** Advisory, High Wind Warning, Hurricane, Hurricane Warning, Hurricane Watch, Invest, Storm Surge, Storm Surge Warning, Storm Surge Watch, Storm Warning, Tropical Depression, Tropical Disturbance, Tropical Storm, Tropical Storm Warning, Tropical Storm Watch, Tropical Wave.

Definitions can be found in the [National Hurricane Centers Glossary](#) of terms.

**Please note:** No two weather systems are the same; each weather event is taken seriously, and an action plan is developed based on the forecasted severity, strength, and trajectory of the event.

**Inclement Weather:** All planned activities are dependent upon weather, tides and sea conditions. Your safety in regard to these conditions is paramount. Occasionally, inclement-tropical weather forces Sea Base to delay or cancel activities. Attempts will be made to reschedule activities when possible. Refunds will not be issued for activities including sailing, SCUBA diving, paddle boarding, kayaking, fishing, camping or other planned activities cancelled due to inclement weather.

**Hurricanes and Evacuation:** Sea Base constantly monitors tropical systems as they move off the coast of Africa. Program interruption due to hurricanes are extremely rare. All programs in the Florida Keys follow guidance set by the United States Coast Guard & Monroe County, Florida Emergency Management. If Sea Base is under evacuation orders, programs are cancelled and participants are evacuated. Evacuation orders are generally given 24-36 hours prior to potential landfall. Sea Base refunds program fees for missed program dates only, from the time crews depart Sea Base accommodations.

**If evacuation orders are communicated to your crew, depart at first available transport.** Flights and ground transportation may not be available if your crew chooses to delay.

Travel trip insurance is highly recommended to cover the cost of travel expenses, especially during hurricane season (Jun 1-Nov 30).

## WILDLIFE AND TOXIC PLANTS AT SEA BASE

**Sharks, Rays, Lionfish, Goliath Grouper and Eels:** Sharks, rays, lionfish, goliath grouper and eels pose an extremely low risk to humans. Participants should give all marine species a wide berth and avoid touching, harassing or provoking marine animals.

**Fire Coral:** Sea Base participants should never touch any coral or coral-like structure. When touched, fire coral shoots a coiled barb which releases a neurotoxin upon entering either prey or predator. In humans, the toxin can cause burning skin conditions or rashes that may last several days. Treatment includes rinsing the affected area with vinegar and keeping the affected area clean and dry. Open wounds or severe scrapes require medical evaluation.

**Sea Urchins:** Covered in calcium carbonate spines, sea urchins pose a limited risk to divers, snorkelers, and waders who step on or attempt to grab or handle these animals. sea urchin spines can easily penetrate skin and then break off. To avoid this risk, participants should avoid handling sea urchins and wear hard-soled shoes or dive booties when wading in areas populated by sea urchins.

**Moon Jellyfish and Portuguese Man-O-Wars:** Jellyfish and man-o-wars pose a limited risk during Sea Base Adventures. Moon jellyfish stings can cause skin irritation and minor pain. Treatment includes rinsing the affected area with vinegar. Man-o-wars can cause skin irritation, swelling and pain. Treatment includes removing the tentacles and rinsing the affected area with vinegar. If swelling worsens or an allergic reaction occurs, medical evaluation and/or treatment may be required.

## SEA BASE EMERGENCY PROCEDURES

**Medical Emergencies on Land:** Call 911, alert Sea Base staff. Secure individual's Scouting America AHMR for EMS.

**Medical Emergencies while at Sea:** Call Channel 16, United States Coast Guard or 911. Secure the individual's Scouting Annual Health and Medical Record for use by EMS.

**Fire on Land:** Pull fire alarm, call 911, keep your crew together and move to the defined evacuation point, alert Sea Base staff.

**Fire at Sea:** Follow direction of captain. If captain is incapacitated, call Channel 16: "US Coast Guard, US Coast Guard, US Coast guard this is Sea Base vessel \_\_\_\_\_ located at latitude/longitude \_\_\_\_\_ we have a fire aboard." If the fire is small (e.g, the size of a wastebasket), all participants must don lifejackets and then a trained adult should use an onboard fire extinguisher to put out the fire. If the fire is larger than a wastebasket and the crew is forced to abandon ship, "May Day, May Day, May Day this is Sea Base vessel \_\_\_\_\_ located at latitude/longitude \_\_\_\_\_ we have a fire aboard and are abandoning ship. We have \_\_\_\_\_ adults \_\_\_\_\_ youth plus \_\_\_\_\_ crew." Every participant must don USCG-approved life jackets and in an orderly manner abandon ship. As participants abandon ship, the adult crew leader should count off to ensure that there is no one left aboard the vessel. Once in the water the adult crew leader must take a second headcount, form a circle by locking arms and stay together until rescue arrives.

**Man Overboard:** Maintain eye contact, point to the individual and yell, "Man Overboard." Continue to point and maintain eye contact until the individual is safely back aboard the vessel.

**Aggressive Individual:** Move away from the person as quickly as possible. Once at a safe distance, alert Sea Base staff or in extreme circumstances call 911.

## KEYS ADVENTURE

### OVERVIEW

The Keys Adventure program is our most diverse program and offers a sample of all the activities provided at Brinton Environmental Center. Crews will spend sunny days sailing, fishing, kayaking, snorkeling, camping on primitive Big Munson Island, and sightseeing in Key West and local State Parks. Crews will also be given the opportunity to work in our land-based coral nursery to help restore Florida's Coral Reef! This adventure allows crews to explore the diverse environment and culture of the Florida Keys, while learning about conservation of our sensitive ocean ecosystem. Please note that daily activities are dictated by weather, tides, and the ability of the crew. Your activity plan can vary, sometimes widely, due to these factors.

**Key West:** Your adventure will include a trip to the southernmost city in the continental United States which is rich in history and culture. Brinton Center staff will provide lunch and transportation to/from Fort Zachary Taylor State Park in Key West. After lunch, crews may visit the Florida Keys Eco-Discovery Center and explore the city on their own. Keys Adventure crews should research activities to do in advance but be sure not to miss the Sunset Festival at Mallory Square! Dinner in Key West is the only meal not provided during your adventure.

**Big Munson Island:** Your adventure includes an overnight stay on Big Munson Island. Big Munson Island is a barrier island comprised of hardwood hammocks, low mangrove swamps and sandy beaches. Your crew will wade to shore from our vessels and, depending on the tide, the water may be knee high to chest deep. Your campsite will be ready with everything you need, including tents. All cooking equipment needed for your stay is provided. Sleeping pads are encouraged. ***If your crew makeup requires more tents to satisfy Scouting America Safeguarding Youth Policies, then participants need to provide their own small backpacking style tent for a single sleeper.***

Please note that daily activities are dictated by weather, tides, and the ability of the crew. Your activity plan can vary, sometimes widely, due to these factors.

**Key West:** Your adventure will include a trip to the southernmost city in the continental United States which is rich in history and culture. After the crew snorkels at one of the nearby reefs, your Brinton Center mate will provide transportation to/from Key West. Crews will have time to explore the city on their own. Fishing Adventure crews should research activities to do in advance but be sure not to miss the Sunset Festival at Mallory Square! Dinner in Key West is the only meal not provided during your adventure.

**Accommodations:** Your crew will be staying in air-conditioned dorms for the duration of your adventure. The dormitories are equipped with bunk beds with twin-sized mattresses, large enough to sleep three crews. Linens are not provided. Shower and laundry facilities are available.

**Fishing Adventure Crew Size:** 6-8 individuals. This number includes both youth and adult participants. Due to US Coast Guard Regulations, crews may not exceed the maximum number allowed; no exceptions will be made.

# PROGRAM INFO

**Storage:** The Fishing Adventure dormitory is equipped with one footlocker per crew. The footlocker is provided to stow valuables during day trips. Please provide a lock if preferred.

**Fishing Adventure Crew Size:** 6-8 individuals. This number includes both youth and adult participants. Due to US Coast Guard Regulations, crews may not exceed the maximum number allowed; no exceptions will be made.

**Length of Adventure:** 6 nights, 7 days including arrival and departure dates.

**Fishing License:** All participants 16 and over must purchase a valid 7-day saltwater Florida Fishing License. See Fishing License section for details. [www.gooutdoorsflorida.com](http://www.gooutdoorsflorida.com)

**Conservation-Minded:** Crews are discouraged to “fill the cooler” in order to bring fish home after their adventure has ended. This adventure is focused on learning how to fish responsibly by implementing sustainable fishing practices in our delicate environment of the Florida Keys and surrounding waters. Crews will have the opportunity to cook and eat their catch at the Brinton Center and can take fish to “cook your catch” at many restaurants in Key West.

Attending adults **may not** be registered solely outside of a unit: Example: Merit Badge Counselor with no unit registration. ***It is the role of accompanying adults to ensure youth safety. Because of this, adult participants must arrive in good physical condition and have no medical conditions that could result in diverting the Sea Base staff's attention away from youth participants.***

**How old must I be to participate in a Sea Base program?** For the Out Island Adventure: 13 years of age as evidenced by the [Scouting America Health and Medical Record](#). For Keys Adventure & Fishing Adventure: 12 years of age as evidenced by the [Scouting America Health and Medical Record](#).

**Sea Base's literature states that the maximum crew size for my adventure is 8 persons, including adults. Can we exceed that maximum crew size and bring a 9<sup>th</sup> person?** Absolutely not. The maximum crew size is 8 persons for the Out Island, Fishing and Keys Adventure. This is due to US Coast Guard regulations, among other factors. No exceptions will be made.

**A couple of our original Sea Base crew members have unfortunately dropped out. Is Sea Base able to help us fill those two slots?** Sea Base has a page on their website called [Scout Connections](#). Here, leaders can post information about their crew and their needs to fill the open slots. *It is up to you to make all the arrangements with your connection. Sea Base will not become involved and make no promises as to the accuracy of the information provided by crews.*

**Due to Scouting America Youth Protection Policies, four tents will not suffice for our crew's stay on Big Munson Island. What do I need to do to follow policy?** For Out Island and Keys Adventures, participants will be provided with four tents for sleeping during their stay on Big Munson Island. Youth and adults may not share tents, except for father/son or mother/daughter. Youth more than 2 years apart in age cannot share a tent. Non-married males and females may not share a tent. **If your crew makeup requires more tents to satisfy Scouting America Safeguarding Youth Policies, then participants need to provide their own small backpacking style tent for a single sleeper.**

No refund will be offered for non-swimmers.**
